## Excellent land with 1920 M2 for construction with superb view of the Sea and Mountains, over S. Jorge

This is a very sought after place for tourism (Levada do Rei), however, it can also be the most suitable region for those who want to settle quietly for a life in contact with nature and 5 Minutes from the center of S. Jorge. In addition to the charming gardens, you will have at your disposal schools, supermarkets, pharmacy, access to the expressway, etc...

The natural beauty of this well-preserved region of Madeira between the ocean and the mountain, may be one of the biggest arguments to take a leap to a new life, but if you are looking for more reasons, count on several places that you can enjoy as a family or on walks alone through the "Levadas" in the middle of nature, or take a leap to Funchal, the Farmers' Market, the Madeira Botanical Garden, the CR7 Museum or the Funchal Municipal Garden.
